

Service Annex — Northwind Logistics NV

Client-specific payroll arrangements (annex 3 to the service agreement)

Client	Northwind Logistics NV (fictional)	Country	Belgium (BE)
Product	Payroll	Effective from	1 March 2026
Owner	Account team Northwind	Signed	12 February 2026

This annex records the arrangements agreed with Northwind Logistics NV that deviate from SD Worx standard service levels. Where this annex and a general procedure or calendar differ, **this annex prevails for Northwind only**.

1. Payroll cut-off

Because Northwind runs a 24/7 warehouse operation with shift premiums calculated at month end, the variable-data cut-off is **the 25th of the month, 12:00 CET**, instead of the standard 20th. Pay date remains the last working day of the month.

2. Shift premiums

Shift	Hours	Premium
Early	06:00 – 14:00	4% of hourly wage
Late	14:00 – 22:00	8% of hourly wage
Night	22:00 – 06:00	18% of hourly wage
Sunday	Any	100% (paid as overtime)

3. Reporting

- Monthly payroll journal delivered to Northwind Finance by the 3rd working day.
- Quarterly absence report per site (Antwerp, Liège, Genk).

4. Contacts

Questions about this annex go to the Northwind account team. The client-side contact is the HR Operations Manager.
