This FAQ collects the questions our helpdesk receives most often. Answers are kept short on purpose; check the relevant procedure for details.

Q1. When is the payroll cut-off for monthly paid employees?

Variable data (overtime, absences, new hires) must reach us by the **25th of the month** at the latest. Data received later is processed in the next month.

Q2. When is double holiday pay paid?

Double holiday pay for white-collar employees is paid in May or June and equals 92% of one month's gross salary.

Q3. Are meal vouchers subject to social security?

No, provided the legal conditions are met (maximum employer contribution, employee contribution of at least € 1.09, one voucher per day worked).

Q4. How do we register an employee on sick leave?

Enter the absence with code 'ZK' in the portal. A medical certificate must be received within two working days, unless the work regulations say otherwise.

Q5. Can a client change the pay date?

Yes, via a change request to the account manager, at least one month in advance.

Q6. What happens with company car benefits when an employee leaves?

The benefit in kind is calculated up to the last day on which the car was available to the employee.

Q7. How is holiday pay calculated when someone leaves?

It is calculated on the **current calendar year's earnings only**. Take the gross earnings from January up to the leaving date and apply the **7.67%** rate. The previous year is not relevant because holiday rights reset each January.

Q8. Who do I contact for questions not in this FAQ?

Post the question in the Payroll BE Teams channel.
